

## EXECUTIVE PROTECTION.

Emperor William Opens the Reichstag with an Impressive Speech.

## STRINGENT LAWS DEMANDED.

The Executive Power Must Be Shielded from Pernicious Obstruction.

## THE NEW REICHSTAG BUILDING.

The Kaiser Lays the Final Stone in the Magnificent Structure.

BERLIN, Dec. 5.—Emperor William, wearing a British uniform, visited the Prince of Wales and the Duke of York this morning, and the two latter afterwards returned His Majesty's visit an hour later. They then started for England.

After the departure of the Prince of Wales and the Duke of York, Emperor William donned a Prussian uniform and prepared to open the Reichstag.

The Reichstag is so far from the Monarchy does not come to Parliament. But His Majesty must go to the Castle for the ceremony.

The Freisinnige Zeitung says that this shows how modest a part Parliamentarism holds in Germany.

The session was opened at noon in the Rittersaal of the Castle, instead of in the usual White Hall, which is being renovated.

Emperor William, in person, read his speech from the throne. It was as follows:

Honorable Gentlemen:

In the name of my exalted allies, I bid you welcome to the Reichstag. Your constitutional work, you will transfer your labors to your new home, which, after two years of construction, is now upon the point of completion, a monument of our national industry. May God's blessing rest upon the house, and may the greatness and welfare of our nation be the goal of all who are called upon to work within its walls. I will aim for self-sacrificing loyalty, and I will strive to be more strongly in view of the economic and social political tasks which must be solved with your co-operation.

"Faithful to the traditions of our ancestors, my exalted allies and myself regard it as our foremost duty to the state to protect the weaker classes and in attaining higher economic and moral development."

"The duty of the State becomes more imperative as the struggle for existence upon the part of certain sections of the people grows more serious. The Federal Government will continue its efforts to promote feelings of content among the people by mitigating economic and social distresses."

"But, if these efforts are to succeed, it appears necessary to oppose more resolutely than hitherto the pernicious conduct of those who attempt to disturb the executive power in the fulfillment of its duty."

"Experience has shown that the existing legislation for the purpose of securing the maintenance of the country now before the Reichstag, and necessary bill will be submitted to you without delay, chiefly by extending the right of pardon, and that you will lend your energetic co-operation to this serious task."

His Majesty next alluded to the prejudicial effect the abuses of Boers speculation upon national prosperity, and said that to remedy these evils, a bill was being prepared which would probably be submitted during the course of the session. Continuing, the Emperor said:

"The same is the case in regard to a bill which is intended to strengthen the competition which does not scruple to employ unfair means, and which contributes to strengthening confidence in business and commerce."

"To my lively satisfaction, my confidence in the maintenance of European peace has been further strengthened during the last year. Faithful to the spirit of our alliances, we cultivate good and friendly relations with all the powers."

"During the course of the last few months two neighboring empires have been deeply stirred by grave events."

"Germany has sincerely joined in the sympathy which the world has shown for the peace-loving people of Russia, and in the desire to see the peaceful relations of the two empires restored. I deplore the loss of a friend and a tried co-operator in works of peace."

His Majesty afterwards went to the Reichstag Building in order formally to perform the ceremony of laying its final stone, which is combined with the dedication of the building, and the formal opening of the new session of the Reichstag.

Immense crowds of people were gathered along the route and outside of the new building and cheered the Emperor and the German reigning Princes on their way there and upon their arrival. Prince Hohenzollern, the Chancellor, and Field Marshal Blumenthal, Chief of the General Staff of the Prussian Army, who is about eighty-four years old, were accorded an especially warm welcome from the people.

The dedication ceremonies passed off without a hitch. The scene was most brilliant. A large number of troops were stationed for the use of the Imperial family and highly-favored guests, and over it was a canopy topped by the Imperial crown. Beneath this canopy, the Emperor and Empress and the German Princes were gathered. Opposite this structure were the military and other notabilities as well as the members of the Diplomatic Corps.

Emperor William, in his speech, dedicating the building, said:

"I have decided in the name of the sovereigns and free cities of the Empire, in conjunction with the constitutional representatives of the German people, to lay the last stone of the Reichstag building, which is the seat of our legislative bodies, will henceforth discharge their labors."

The exalted founder of the Empire, my grandfather, who laid the foundation stone of this building, was not permitted to work his glory crowned. His son, by God's decree, was called away before he was able to do so.

"We bless with heartfelt gratitude those our predecessors in Imperial dignity, so will we be certain, their memory continue to live forever in the minds of all Germans."

"Ten years have been occupied in the erection of the structure which now rises to the height of 100 meters, and which is dedicated by German hands."

## A testimony to German industry and German strength.

"So it now handed over for its appointed purpose, and may the fear of God, the spirit of love of the Fatherland and concord rest within its walls."

"Let the structure be a monument to the great times in which the Empire arose—an exhortation to coming generations to preserve with inviolable loyalty what their forefathers secured with their blood."

"May God bless this building."

Two copies of the Emperor's speech were made and countersigned by Prince Hohenzollern. One was placed under the cornerstones and the other was added to the archives of the Reichstag.

The new Reichstag building, a monumental structure, has taken over ten years to build.

On June 9, 1884, the foundation was laid by Emperor William in the presence of nearly all the German Princes and rulers.

At that time the chief architect, Paul Wallat, and scores of assistants, sculptors, painters, carvers and artisans from every part of Germany have been busy on the structure, and now it is being dedicated to its proper use. Yet it is not by any means complete. The great Bismarck statue, to be placed in the west frontage, the two gigantic heralds, to be placed on the east frontage, and the outer decorative surroundings, which, with the complete clearing of the square around the building, will take years.

It stands on the east side of the Koenig-Platz, a stone's throw from the Column and Victoria square, covers 125,000 square meters. It has cost 25,700,000 marks to build and equip, of which 18,000,000 only were asked for under the first estimate.

As to the style of architecture it is a special creation of the architect belonging strictly to no school at all. The building is a singular, flanked by four towers, and bears in the centre part its roof a cupola made of gilt wrought iron.

DE LESSEPS NEAR DEATH.

The Great Engineer Said to Be in a Critical Condition.

PARIS, Dec. 5.—Count Ferdinand de Lesseps, the distinguished engineer who pierced the Isthmus of Suez by means of a canal, and who tried to unite the Atlantic and Pacific oceans by a waterway across the Isthmus of Panama, is announced to be in a critical condition. He was born in 1805.

A TRUFE FOR TEN DAYS?

Rumors of an Armistice Between Japan and China.

SHANGHAI, Dec. 5.—It is rumored here that a ten days' armistice has been arranged between the Chinese and Japanese. It is said that the terms of peace which are still under negotiation are to include an indemnity and the formation of a buffer State consisting of the country now held by the Japanese. China now fears the Japanese more than Japan, as the supplies of rice have been kept back too long.

HAMBROUGH LOSES HIS CASE AGAINST A LIFE INSURANCE COMPANY.

LONDON, Dec. 5.—The suit of Major Dudley Hambrough, of Sleep Hill Castle, Isle of Wight, against the New York Mutual Life Insurance Company to recover \$30,000 insurance upon the life of his son, Lieut. Windsor Dudley Hambrough, who was shot and killed at Ardnamoan, Scotland, on Aug. 10, 1892, has resulted in a verdict for the Company.

The affair was known as the Ardnamoan murder mystery. The young man's tutor, Alfred J. Monson, was tried on the charge of murdering the lieutenant at Edinburgh, in December, 1892, with the result that the jury returned a Scotch verdict, "Not proven."

German Botanist Murdered.

VICTORIA, Mexico, Dec. 5.—Dr. Carl F. Renbaum, a prominent German physician and bacteriologist, arrived here five months ago and started on a trip overland to make researches. He was accompanied by a Mexican servant. Yesterday a skeleton was found a few miles from here, and it was identified by the clothing to be that of Dr. Renbaum. The skeleton was found by a servant killed the doctor for the purpose of robbery.

Switzerland Asks International Regulations on Labor Questions.

BERNE, Switzerland, Dec. 5.—The National Council has requested the Federal Council to resume negotiations with foreign governments for the establishment of international regulations upon labor questions.

IMPORTANT CASE FILED.

It Will Serve as a Precedent Regarding Tax Cancellation.

ALBANY, Dec. 5.—A case was filed in the Court of Appeals this morning, when, when decided, will settle the question of the right of an owner to apply for tax cancellation directly.

William Witte, of Flatbush, Kings County, applies to the Comptroller for cancellation of the tax sale of 1891, by which certain property in Flatbush was sold for non-payment of taxes. It was bid in on behalf of the State, subsequently conveyed to the State, and the Comptroller of the Land Office.

The language of the law on this point being rather obscure, Deputy Comptroller Morgan refuses the application to set aside his bid, and the case is now before the courts. Should this case be decided for the plaintiff numerous similar cases relating to the Flatbush land will undoubtedly come up.

Tappen Don't Like Olmsted.

When the minutes of a previous meeting of the Park Board were read to-day Mr. Tappen wanted an amendment inserted, saying that Mr. Olmsted stated he supposed the driveway was to run along the high ground, Commissioner Bell objected. Mr. Tappen's amendment will go into the printed records of the Board.

Expert Diver on the Fight.

Mr. Diver, P. J., who, since his life saving work in the case of the shipwrecked steamer, has been known as an expert in all the details of the art of diving, has been asked to assist in the case of the shipwrecked steamer, which is now being raised by German hands.

## BE GENEREOUS IN YOUR DONATION.

That These Diseases Are No Longer Incurable Because Chronic.

Dr. Copeland's Courteous Words to Those Doctors Who Still Deny the Absolute Curability of Catarrhal Maladies.

There is no sense nor humanity nor professional honesty in exaggerating the list of incurable malady. The physician who holds to-day that the commonest of chronic Bronchial and Lung Diseases, chronic Kidney Disease, chronic Liver Disease, or the severe types of Catarrh, Asthma, Rheumatism, etc., are incurable because chronic, contradicts a matter of fact attested by thousands of people who have been cured of these very malady by the Copeland specialists, right here in New York, contradicts all the evidence of the series to which the chapter given below belongs.

To say that the chronic maladies enumerated above will not yield promptly to correct specific treatment is either an inexcusable error or an inexcusable falsehood. It is in any case an inexcusable impertinence to those thousands of intelligent and reputable people who testify to their radical and lasting cure of these diseases by the Copeland specialists. And when they say CURED they mean it. They do not mean relief or improvement, they mean the complete elimination of the seed poison and seed principle of chronic disease and the permanent return of natural health.

It must be borne in mind that it is only to such physicians as still in the face of this evidence maintain the incurability of these diseases that Dr. Copeland addresses these words. He asks them to investigate the evidence of this series, and after they have investigated it to tell their patients the truth about it; to frankly admit what they have so long mistakenly denied.

It may be that years of repeated denial will make the admission difficult. Will it not be then all the more creditable to make your admission the more frank, explicit and emphatic? Would it not be creditable for you to say: "I have investigated the evidence of this series and I have found that Dr. Copeland and Gardner do cure Catarrh. I was mistaken when I told you Catarrh was incurable. I do not make a business of treating Catarrh. I have had no special experience with the disease. I have not the expensive instruments needed. Catarrh can only be treated by a specialist. Now I find not only that Dr. Copeland and Gardner are qualified and skillful physicians and specialists, curing Catarrh, but that they cure it in a way that saves their patients for actually less than one-eighth the fee usually charged by specialists, who, as a rule, devote two or three hours a day to office work and rely for income on large fees from few patients. Dr. Copeland and Gardner treat an army of patients. They can afford to treat them for fees which seem ludicrously small in comparison with the fees usually charged. I advise you to go to them and to have your case cured. I need not tell you that you may be liable to the train of disorders that often follows, such as Dyspepsia, Bronchitis, Pneumonia, Diphtheria and Consumption. It is for your sake that I advise you to go to Dr. Copeland and Gardner. If there is nothing in it for me, they cannot send me patients in return. They belong to no ring or combination of doctors. I send you to them to save your time and your money and to save your health. I send you to them because it is the fair, manly, honest and intelligent thing for me to do."

In this worthy family physician, in view of your repeated denials and the injustice which you must admit you have shown by this to Dr. Copeland and Gardner, I feel it my duty to ask a honest man who has done so wrong is not over-cautious as to the extent of the statement he makes. Dr. Copeland and Gardner have nothing to offer you except the gratitude of patients they will return to you as a consequence of the cure which they have had time and again in acute and serious illness in years past, and will be again and again in years to come, obtain through your recommendation. I send you to them, I send you to them because I have seen and know the cure which they have for their frankness and manliness be a sufficient reward? Dr. Copeland and Gardner cannot send you patients in return. They can only send you to them to save your time and your money and to save your health. I send you to them because it is the fair, manly, honest and intelligent thing for me to do."

MORTON HERE AGAIN.

Brookfield Declares Himself for the Present System.

The fight between Thomas C. Platt and the Committee of Thirty Republicans, in on in earnest, and the primaries next Tuesday night promise to be remarkably lively. At the primaries only delegates to the Assembly District Conventions are elected, and these latter bodies choose the delegates to the County Convention.

William Brookfield, who has been trying to retire from active politics each year for some time, is this year avowedly a candidate for re-election as President of the County Convention. He did not wish to talk about the contest to-day, but he finally authorized "The Evening World" to publish this statement.

There is a fight on for the control of the next County Convention. Although I am not informed if those opposed to the present organization have yet agreed on a candidate for President, I do not know just exactly what the opposing forces intend to do, but do know that there is some opposition to the election district system of organization.

"As for myself, I simply wish to say that I am unequivocally for the maintenance of the present system. Under this plan no one man can permanently control the organization of the County Convention. The organization gains in public estimation. I fully believe that to the reorganization of the party in this city, due to the large part the great victory which the Platt people are very angry with Mr. Brookfield, because they attribute the action of the County Convention in endorsing the ticket of the Committee of LXX, since the election, to his influence. I believe that the Platt people have elected a straight ticket, and then they would have had a large part of the victory which the Platt people are very angry with Mr. Brookfield, because they attribute the action of the County Convention in endorsing the ticket of the Committee of LXX, since the election, to his influence.
